

NO-FUSS SETUP

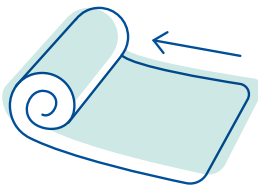

- 1** Slide compressed crib mattress out of the box.

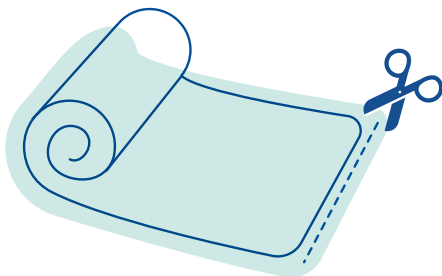

- 2** Pull the outer wrapper at the thick seam to unroll the crib mattress. **Do not** use a knife or scissors to cut this, it will unroll easily.

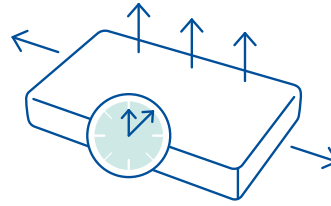

- 3** Roll out the compressed crib mattress.

- 4** Cut the bag at the sealed edge with scissors, careful not to cut any of the crib mattress edges. Remove the outer bag and discard. **Keep bag away from children.**

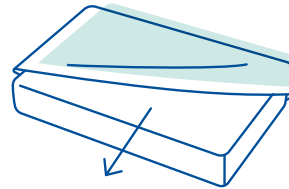

- 5** The crib mattress will take shape within 5 minutes.

One-stage mattresses: cover can be put on either side.

Two-stage mattresses: The firmer infant side is stamped INFANT / L'ENFANT. It is visible with arrows pointing to the infant side.

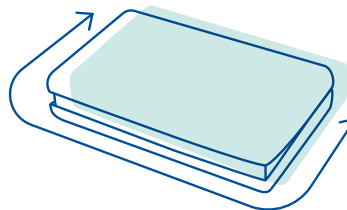

- 6** Most models are shipped with the cover off to help maintain quality. To assemble the cover on the crib mattress, slide the cover over the foam core.

You may put the cover on the crib mattress after the first few minutes of expansion, or wait longer for it to fully expand for to more easily fit it into the cover.

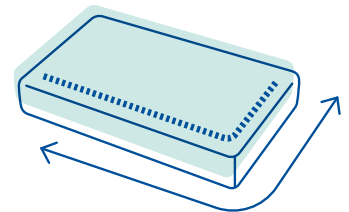

- 7** Fully close the zipper around the crib mattress core.

3-Sided Zip Cover

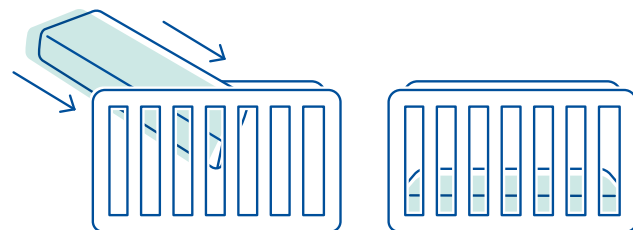

or

Bottom Zip Cover

- 8** After the crib mattress is completely rolled out and the cover is securely zipped closed, place into baby's crib or toddler bed.

Allow up to **48 Hours** for the mattress to return to its fully intended size before using.
